The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-4, 11, 18 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cheng et al '382 in view of Ballantine.

Cheng et al and Ballantine are applied as stated to be applied to claim 4 in the office action mailed 7/30/03. The RTA step of Ballantine would increase the oxygen content and decrease the hydrogen content of the oxynitride film as recited because the same materials would be treated in the same manner as in the instant invention (see claim 4, for example). The device would also have the same properties with respect to the liquid used in the cleaning step for the same reason as above.

Applicant's arguments are addressed in the statement of the rejection above.

Claims 12-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cheng et al '382 in view of Ballantine as applied to claims 1-4, 11, 18 and 20 above, and further in view of Wolf.

Wolf is applied as stated to be applied to claims 12-17 in the office action mailed 7/30/03.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this

final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
